PROFESSIONAL SUMMARY

Passionate Full Stack Developer and ICT intern with hands-on experience building and deploying real-world Django web applications. Skilled in Python, HTML, CSS, JavaScript, SQLite and MySQL. Driven by a love for solving real problems through clean, functional code. Currently completing my attachment at Swahilipot Hub in Mombasa, where I have delivered production-ready projects and contributed to community tech engagement.

EXPERIENCE

ICT Intern — Full Stack Developer

9th March 2026 – Present

Swahilipot Hub, Mombasa, Kenya

- Built and deployed the Hub Growth Tracker — a full-stack Django milestone tracking app with auth, CRUD, Chart.js, PDF export, dark/light mode and badge system. Live at hub-growth-tracker.onrender.com.
- Developed Skillshare Kenya, a Django skills marketplace with django-allauth, Tailwind CSS dark theme and PWA features, deployed on Render.
- Contributed to Sanaa-Sync, a Django/MySQL creative bookings platform for the Swahilipot Creatives Department.
- Maintained internship logbook, wrote technical articles on dev.to, and participated in community tech events including a chess event at Fort Jesus.
- Presented on "AI for Freelancers in Kenya" at a Django Mombasa and Pure Pearl Foundation event.

PROJECTS

Hub Growth Tracker

hub-growth-tracker.onrender.com

Django · Python · SQLite · Chart.js · JavaScript

Full-stack milestone tracking app with login, filters, progress charts, PDF export, dark/light mode, badges and pagination.
